The West Boylston Department of Public Works will begin street sweeping on March 29, 2010. This schedule will be followed as closely as possible with the chance of delays due to inclement weather, equipment breakdowns, emergencies, etc.

It is imperative that residents not place any debris (sticks, trash, rocks) in the street that may damage the equipment. Also, please make sure that any ice storm debris that has been piled is not protruding into the street or the sidewalk because that would prevent the street sweeping operation. The DPW will not be able to sweep such areas and the sand will not be able to be picked up.

Please contact the DPW at 508-835-4820 with any questions.

Thank you,  
John K. Westerling  
Your Director of Public Works
