

HOW YOU CAN STOP MOSQUITOES!

CHECK YOUR YARD & HOME...

If there are any places around your home where water collects, such as water holding containers, plastic tarps on wood piles, old boats and ornamental ponds - **YOU MAY BE RAISING MOSQUITOES!**

You should... Get rid of old tires, tin cans, bottles, jars, buckets, drums and other containers, or empty them on a weekly basis.

You should... Empty your small toddler-size plastic wading pool weekly and store it indoors when not in use. Make certain your backyard swimming pool is properly cared for while on vacation.

You should... Repair leaky pipes, outside faucets, and move basement sump drain hoses frequently if water pools at the outlet.

You should... Change water and scrub vases holding flowers or cuttings twice each week - or grow cuttings in sand; scrub and change water in bird baths twice weekly; empty water pans for pets daily.
